CFT®

COMFORTEX®

Dear Valued Clients,

We are pleased to introduce Comfortex Holding as your esteemed and dependable solution partner, with a notable track record spanning 20 years in the sector. Our steadfast commitment to serving you and
ensuring a renewable and sustainable future has been the driving force behind our success.

At Comfortex Holding, we consistently strive for excellence, placing significant emphasis on valuing nature, envisioning the future, and fostering innovation. Our extensive range of practical solutions caters to the
energy needs of individuals not only within Europe and Turkey but also globally. We take great pride in presenting our distinguished assembly series, a European design patent that guarantees the highest quality standards, meticulously crafted by our team of solar energy system specialists.

Furthermore, we are pleased to announce our official distributorship of JA Solar, a globally renowned leader in panel manufacturing. This strategic collaboration empowers us to take even more confident strides towards a promising future.

Rest assured, our unwavering commitment to delivering exceptional quality and impeccable service in the energy sector remains steadfast. As we continue to embrace the sun as a beacon of hope for the future, we invite you to embark on this journey with Comfortex, where trust and experience converge.

We sincerely appreciate your continued support.

Warm regards,

We manufacture and support solar energy systems.

S Series

COMFORTEX®

Enhancing the market´s premier series with an array of distinctive connection options. Unveiling the pinnacle of market desirability, now enriched with a variety of connection options. Showcasing the essence of market charm, amplified by varied connection options. Including Square Nuts, T-bolt secured, Hexagon screw secured, EPDM secured Mini-rails for Sandwich panel roofs, Angle ´L-U´, and C2275T auxiliary connection profiles.
